

Fast, Efficient, Safe

Breakclear emulsion breakers remove water from oils, and oil and solids from water. They work just as well on natural oils and fats as they do on petroleum waste.

Breakclear, good for the environment and good for your bottom line, because they

- ▼ Remove water from petroleum and natural oils
- ▼ Remove oil from waste water streams
- ▼ Remove solids from waste water stream
- ▼ Minimise sludge build up in waste systems
- ▼ Help control odours
- ▼ Recover oil from waste systems
- ▼ Minimise waste volumes

Which Means

- ▼ Lower waste disposal costs
- ▼ Recovery of product for re-use
- ▼ Lower emissions
- ▼ More power
- ▼ Lower operating costs
- ▼ Longer service intervals
- ▼ Higher plant efficiency

Breakclear is perfect for

- ▼ Oil recycling plants
- ▼ Waste water treatment plants
- ▼ Petroleum and petrochemical processing plants
- ▼ Food and dairy processing plants

Breakclear is easy to use

Simply add Breakclear to the waste oil or water system. A Fueltreat specialist is happy to advise on the optimum product and addition method for your process.
